UC, since there have been several versions of the Phase III document, I considered Mark's question as an indicator that a summary of comments/replies would be helpful. The attached document is a summary of the comments we have received so far and our collective comments regarding Phase III document as it has evolved over the past couple of weeks.

If anyone has comments/replies from other parties, please pass them along as we are trying consider all viable input into this process.

Thanks, Tom

Hi Tom. So, the coastal commission and all the other folks have provided input as well?

Mark

UC, attached is the Phase III Maintenance and Monitoring Plan (dated 12 July 2015). PSC and EUL have taken the comments and suggestions from US Coast Guard, CA DFW, CA State Parks, SB County, and RP into consideration. As a result we have developed a streamlined process with flowchart and definitions to provide you a comprehensive plan to consider.
